BUILDERS FACE TRIAL

Legal Action Instigated By Citizens Committee Of New Veteran Home Owners

Acting on the complaint of ex-G.I. home owners in the new Hansen Tract in Centerville, August F. Rahlves, state inspector of the contractors' license board, Wednesday filed charges in Centerville Justice Court against the three builders and developers of the new homes.

The three defendants who appeared before Judge Allen G. Norris yesterday to post bail of $500 each were C. G. Shuman and L. M. Lewis, heads of Suburban Homes Incorporated, developers of the tract, and Dan B. Bodily, construction contractor.

The complaints against the three men are identical and charge them with a misdemeanor in violation of section 7028 of the Business and Professional Code of California by "unlawfully and willfully engaging in the business and act in the capacity of a contractor without having first obtained a license from the Contractors' License Board."

TRIAL JUNE 27

Judge Norris revealed yesterday that the maximum penalty in each case if found guilty is a fine of $500 or six months in jail, or both. He set the time of trial for 2 p.m., Friday, June 27, and intimated that he would ask a judge from one of the neighboring districts to hear the case.

The construction of the new homes in the tract began nearly a year ago and there are now 17 completed and 9 still under construction. No injunction, ordering that work be halted until the case is settled, had been filed yesterday.

Bodily, who is head of the Bodily Manufacturing Company of San Leandro, revealed yesterday that he had taken the contract to build the homes from the Suburban Homes Corporation, but had turned the contract over to Robert Rust, a licensed contractor with the Montclare Construction Company. According to Bodily, Rust became ill and was forced to give up the work and Bodily took over the construction end and applied for a license which he received in November.

OTHER CHARGES EXPECTED

Ten of the 14 home-owners in the new tract, all veterans of World War II, have formed a Citizens' Committee headed by J. B. Patterson, Harry Johannesen and Garry Rehrig and it was this group that instigated the action against the three men.

Patterson stated yesterday that the group also plans to bring action against the builders and developers in an effort to have "many faults in the construction" corrected. He listed some of the faults as, "cracked foundations, peeling paint, sloping floors and incorrect plumbing."

The tract is located on Pine Street, two blocks south of Main Street, in Centerville.

NEWARK STRIKE SETTLED; WORK RESUMED MONDAY

Union workers filed back into the Graham Manufacturing plant in Newark Monday morning, marking the end of three months of idleness brought on by a strike of the Stove Mounters' Union, Local 61, A. F. of L.

It was on March 26 that the more than 300 members of the mounters' union left their jobs to hold continuous meetings in an endeavor to gain a 25 cents per hour increase in wages. After negotiations stalemated the strike was officially called on April 15 and picket lines were thrown around the plant, halting all production.

During the following weeks the company and union arbitrators agreed on a 15 cents per hour increase in wages but were unable to settle the dispute on the date of the termination of the new contract. Company officials desired a January 1 termination of all contracts and the union representatives were determined to retain the June 15 date.

The union finally won the controversy and the new contract for one year, dated to expire June 15, 1948 and granting a 15 cents per hour increase, was signed last Friday evening.

The only crews called back Monday morning were the sheet metal workers and the maintenance crews. The other workers will progressively be called back as the various departments resume operation.

A company spokesman revealed this week that it would take nearly a week for the enameling furnace to be ready for operation after being shut down. It was expected that the plant would again be back in full production of Wedgewood stoves by next Monday.

ATTEND INTERNATIONAL ROTARY CONVENTION

Several members of the Niles Rotary Club attended the International Rotary convention in San Francisco last week and reported having a wonderful time.

Among those from the local club attending were Clarence Crane, George Bonde, George Bonde Jr., Vernon Ellsworth, R. A. Jolly and George Stratton. Crane, George Bonde Jr. and Vernon Ellsworth served as assistant sergeant-at-arms during the convention.

BATTERY CHARGE HEARING TODAY

John Hernandez, 25, 410 Ninth Street, Decoto, pleaded innocent to a battery charge when he appeared before Judge E. A. Quaresma in Niles Justice Court last Friday. The case was set for trial for today (Friday).

The charge was filed on the complaint of Louis G. Vidrio, 23, of 410 Eleventh Street, Decoto, following a fight between the two men at the intersection of the Decoto and Niles Roads the morning of June 9.

Officers found two metal bars and a bayonet at the scene of the fight but Hernandez denied using them, claiming he threw them away "to make the fight even."

STADIUM LIGHTING FUND IS WITHIN $4,500 OF GOAL

The volunteer workers selling scrip for the purpose of lighting the Washington Union High School athletic stadium are within $4,500 of their $14,000 goal, it was revealed at a meeting of the stadium executive committee held Monday evening.

Warren Gravestock, chairman of the committee, announced that a total of $9,500 in scrip has been sold to date and expressed hope that salesmen will continue their calling on the residents of the township to give everyone an opportunity to help in the plan to provide this form of evening entertainment for young and old alike.

NOT A DONATION

The salesmen were again assured that they are not asking for donations but are selling the non-interest bearing scrip which will be redeemed at cash value at a future date from the increased attendance at the night football games played by the Washington Huskies.

Gravestock pointed out that the funds for paying back the money advanced on the scrip will not be made up alone of gate receipts to the football games but also from any income derived from renting out the lighted field for any other occasion.

It was brought out at the meeting that the Mountain View stadium was lighted under a similar plan recently and the indebtedness was paid off in four years.

DEADLINE NEARS

Persons who have not been contacted by the scrip salesmen but are willing to advance some money toward the project are urged to either call Gravestock or an officer in any of the civic and patriotic organizations in the township.

It is the desire of the committee to raise the total amount in time to have the lights installed allowing the playing of the 1947 football season here in the evening.

Loren Marriott, chairman of the construction committee, has announced that sealed bids for the installation of the lighting system may now be submitted but was quick to point out that the contract would not be let until the total amount of $14,000 in scrip has been sold. He stated that the bids would probably be opened next Monday at the meeting of the group.

NEWARK RESIDENT KILLED IN CRASH

Ysidro Arroyo, 39, a Mexican Nationalist residing in Newark, was killed instantly Sunday afternoon when a truck on which he was riding went out of control and crashed over an embankment near Stoneybrook Park.

Driver of the truck was G. Tiannaca, San Leandro, who told investigating highway patrol officers that he lost control of the truck on the gravel road leading through the narrow canyon from Palomares Ranch.

Arroyo and six other fruit pickers were riding on the back platform when the crash occurred. Arroyo was thrown from the truck and is believed to have struck his head on a rock, causing instant death from a fractured skull. His 15-year-old son was slightly injured in the accident.

The body was taken to the Berge Mortuary in Irvington. Funeral arrangements are epnding.

PLEADS GUILTY TO BOGUS CHECK CHARGE

Raymond Bermudez, 52, now serving a term in Folsom Prison on a fictitious check charge, pleaded guilty to three counts on a similar charge before Judge Manley Clark in Centerville Justice Court last Friday. His case was certified to the Superior Court for sentence.

Bermudez was charged with cashing three bogus checks in Washington Township, all dated May 23, 1946 for the amount of $17.50 and bearing the name "Roy Martin." He also admitted a prior conviction on the same charge seven years ago.

"DID YOU SEE WHAT I SAW?"

Sitting in the cafe sipping coffee at the Centerville Airport one day last week, Don Hubbard, field superintendent, and Charlie Osborn, chief flight instructor, paid little attention to the shiny new Ercoupe that circled the field and glided in for a smooth landing, but the development that followed left them aghast.

The plane taxied up to the cafe, the pilot swung from the cockpit to the ground, entered the eating establishment, downed a cup of coffee, went back to his plane and took off, leaving the aforementioned two gentlemen sitting speechless with eyeballs protruding.

The pilot of that plane was legless!

APRICOT GROWERS DETERMINED TO HOLD FOR PRICE

Apricot growers of the Eden-Washington Farm Center vowed at a meeting held Tuesday evening to hold out for a $110 per ton price for this year's crop even if it means drying the entire harvest.

The 114 growers represented at the meeting voted to accept no open contracts and are taking precautionary measures to dry the cots in the event the case canners do not meet the $110 price.

Processors here are quoting no prices as yet but it is understood that the offer will probably be somewhat lower than the $100 average paid last year.

The crop here is expected to be about 75 per cent of a six-year average and Eldon Dye, commodity service representative of the California Farm Bureau Federation, speaking at the meeting Tuesday evening, expressed the opinion that the Southern Alameda growers are not "hysterical" due to the fact that most of them are well equipped for drying the cots.

Both the Decoto and Centerville canneries expressed belief that full runs on canning could begin next week if the cots continue their rapid ripening over the week-end.

Tuesday evening's meeting of the growers association was the final session for the season.

NILES CHAMBER STUDIES NIGHT MEETING PLAN

The possibility of holding one evening meeting each month was the main topic of discussion at the Tuesday luncheon of the Niles Chamber of Commerce.

It was brought out in the discussion that the Tuesday noon-day luncheons are not attended by many of the merchants because they find it impossible to be present during the hours their stores are open.

No definite plans will be made until a survey of the merchants is completed asking for their sentiments on the proposal.

President L. R. Batman, who presided at the meeting, emphasized the need of bringing more of the local merchants together with an eye to standardizing closing for holidays* and to find a solution to the parking problem which exists in the retail district. One member suggested that merchants arrange to park their own cars in some area other than in front of the stores, thus allowing greater parking facilities for the customers.

President aBtman urged the members to attend the third in the series of five business men's conferences which will be held in the visual education room of the high school tonight (Friday) at 7:30 o'clock.

JOINS STAFF OF CRANE GARAGE

J. T. Bettencourt, a former resident of Washington Township who has been associated with the Dana-Frane Dodge-Plymouth Service in Oakland, is returning this week and will be employed at the Crane Garage in Niles.

PLANNING BODY TO MEET JUNE 25

A meeting of the Washington Township Planning Committee has been set for 8 o'clock Wednesday evening, June 25, at the cafeteria room of Washington Union High School, according to Secretary Edward E. Enos.

Business of the meeting will concern further efforts of the committee toward establishing a public hospital in Washington Township under the amended state Hospital District Act.

Amendment of the act was brought about through cooperation with the committee of Assemblyman Francis Dunn and Senator Arthur Breed.

Anyone interested in the local hospital need is invited to be present.

CENTERVILLE C. OF C. HOLDS FIRST LUNCHEON MEETING

Further discussion of the possibility of knitting the various chambers of commerce of Washington Township into a federation to act on matters of township-wide interest occupied the larger portion of the luncheon meeting of the Centerville Chamber of Commerce at the California Inn yesterday noon.

This was the first noon meeting in recent history of the Centerville chamber.

Response of a letter asking the opinion of the proposal has been good, according to President Charles Wauhab. Tentative plans, he stated, call for a meeting in the near future of officers of the various chambers.

Guest at yesterday's meeting was President L. R. Batman of the Niles Chamber, who spoke briefly on the difficulty of securing substantial interest and cooperation of all the members in a united effort. He recounted the experience of the Washington Township Planning Committee, which has engineered a number of projects such as improvement of street lighting, enactment of county zoning and building code ordinances, and amendment of the state Hospital District Act so that a hospital district could be formed locally.

Batman suggested that, before a township federation of chambers of commerce be formed, interest be thoroughly determined.

Present at the meeting were: President Charles Wauhab, Secretary Walter Lobato, Allen G. Norris, Louis Cardoza, Fred Rogers, Kurt Suhnel, Loren Marriott, Max Stevenson, Henry Machado, J. P. Aamaral, Joe Adams, Lee Williams, Manuel Lewis, Henry Dusterberry, George Oakes, Jack DeLuce and Erle Hygelund.

MEDICAL BENEFITS REVEALED BY V.A.

E. W. Forsell, Veteran Administration contact representative with temporary offices in the Memorial Building in Niles each Monday from 9 a.m. to 12 noon, has prepared a series of articles for The Register for the benefit of ex-servicemen of Washington Township.

For additional information contact Forsell at Niles any Monday.

MEDICAL ATTENTION

Many disabled veterans are not aware of the treatments available to them through the California Physicians' Service in cooperation with the Veterans Administration.

The California Physicians' Service is an association comprising the majority of doctors in private practice in this state. An agreement which was made effective in March of this year provides that treatment for service connected disability may be furnished by the C.P.S. with reimbursement of fees made subsequently by the Veterans Administration. A veteran of any war may receive this benefit if his disability has been determined as being due to service; or, in certain cases, if a condition arising after service may tend to aggravate a service connected disability.

A veteran may have completed a claim for pension at the time of his separation from service. This is also an application for determination of service connected status for a disability or disabilities. Some time may have elapsed since this application with no notice from the Veterans Administration

NEWARK CHAMBER SEEKS IMPROVEMENT OF WATER SYSTEM

Petitions bearing the names of some 75 property owners of Newark, requestiing immediate action on the water problem in the community, were presented to the Chamber of Commerce Tuesday evening and ordered forwarded to the Alameda County Water District Board of Commissioners.

The need for an increase in the amount of water piped into the community was brought up by Fire Chief Joe Pashote. Chief Pashote revealed that fire insurance rates are excessively high because of the existing water condition. He reported that the insurance company underwriters require a minimum flow of 1,000 gallons of water per minute from fire hydrants located in a commercial district. Chief Pashote said that a test made by him last week showed but 390 gallons flow from one of the hydrants located in Newark. Tests made by Pashote revealed Irvington having a 650 gallons per minute flow and Centerville 615. He warned of the futility of trying to extinguish a large fire with such a small flow of water.

BEAUTIFICATION PLAN

Clyde Lindsay, builder of the Lindsay Gardens, a tract of 50 new homes, introduced a resolution that a committee be appointed to contact the California State Forestry Service in an attempt to obtain ornamental shade trees to be planted throughout the community. President Arthur Cotton, who presided at Tuesday's meeting, was authorized to appoint a committee this week to make a survey of the number of trees that would be needed and contact the forestry service.

Guest speaker of the evening was Ned Butler, vice-president and manager of the Redwood City Chamber of Commerce. Butler, who was introduced by R. A. Jolly, spoke on the topic of public relations and the chambers' place in boosting the town. He emphasized the enjoyment of residing in a small community and suggested that the chamber plan future dinner meetings, barbecues and erect highway signs listing the interesting features of the community.

STREET LIGHTS NEEDED

The need for additional street lights for the community was brought out at the meeting and the secretary was instructed to communicate with the county board of supervisors and the P. G. & E. requesting immediate action.

The meeting was brought to a close with a discussion of the new zoning plan for the town.

HOLD POT-LUCK SUPPER

The members of the Newark Improvement Club enjoyed a pot-luck supper at the Youth Center building in Newark Tuesday evening. The meeting marked the final get-together of the group for the summer. The next meeting will be held in September.

Thinking Things Over...

By VIVIAN BATMAN

I simply ADORE working on a newspaper. It is so—so stimulating to always be in the spot—or should I say ON the spot!

No matter what stand you take on any issue you will always be accused of having ulterior motives.

If we come out and make a plea for a summer recreation program for children the wiseacres will snicker: "Sure, Batmans want a recreation program. It means they'll have somebody take care of their kids!"

If we take a stand on the hospital project, urging a community hospital in this district, the knowing-ones wil say, "Humph, someone in the Batman family must be expecting an operation."

If we should come out and propose a Little Theater movement in this community, some dear soul would likely comment, "Bet a dollar Vivian thinks she'd be the star!"

If we even hint to any organization that a card party is a good way of making money, there'd be SOMEBODY SOMEwhere who would cry out sarcastically, "Sure. Why not? They're thinking of the tickets they might get the printing order on!"

I have been on the verge several times of coming out and campaigning for a "well baby clinic" just to sit back and watch the fun the motive-hunters would have tossing THAT one around!

Did it ever occur to any of the citizens that quite often a newspaper becomes fond of its community and wants to promote things for no other reason than that it likes to see the community prosper?

FOR THIS?

Even more dastardly than the person who robs a blind man is the fellow who will sell a bunch of "ramshackle inns" to our ex-service men—men who gave up home, family, everything, for several years, so that you and I could still live in this country.

What bitterness there must be in their hearts to come back, move into what they thought was going to be "home," only to find that the "home" was a shambles six months after they bought it.

HOW ABOUT IT?

The Niles Chamber of Commerce, in an attempt to increase its active membership, is talking of holding one meeting a month at night, rather than at noon.

The Centerville Chamber of Commerce, in an attempt to increase its active membership, is talking of holding its meetings at noon rather than at night.

Which leads me to suggest that it isn't the TIME of the meetings, boys, that increases or decreases the membership. It's the attractions you have to offer. Now how about a nice girl show—or free passes to the races given away at each meeting?

CHRISTIAN SCIENCE SERVICES

"Is the Universe, Including Man, Evolved by Atomic Force?" This question is the subject of the Christian Science Lesson-Sermon for Sunday, June 22. The Golden Text is taken from Hebrews: "Thou, Lord, in the beginning hast laid the foundation of the earth; and the heavens are the works of thine hands" (1:10).

Included in the sermon is the following citation:

Isaiah: "For thus saith the Lord that created the heavens; God himself that formed the earth and made it; he hath established it, he created it not in vain, he formed it to be inhabited: I am the Lord; and there is none else" (45:18).

Saturday the Washington team will play at San Leandro and Sunday will be hosts to the Col. C. C. Young Post team of Oakland on the home field at Washington Union High School. The season will close on June 29 with a game at Albany.

BREAK GROUND FOR NEW NEWARK PLANT

James Collins, chairman of the industrial committee of the Newark Chamber of Commerce, reported this week that ground had been broken for the erection of the W. L. Mackey Manufacturing Plant in Newark.

The new plant will be located on the south side of Birch Road between Baine and Central Avenues and will be housed in a quonset type building 40 by 100 feet in size. The company will produce a special type of paper tape used in finishing wall board.

Mackey, who has operated a similar plant in San Francisco for many years, stated this week that he expects to have the plant in operation with a staff of 25 employees by mid-July. He predicts that the staff will be increased to 50 by August 1. He expects to draw most of his employees from this area.

NILES OFFICER IN NEW ARMY UNIT

Organization of the 655th Organized Reserve Composite Group was completed Wednesday evening at the Oakland Army Base, it was announced by Col. Earl W. Hunting, San Leandro, commanding officer of the new unit.

Ben York Jr., Niles, is one of the officers assigned to the new 655th Group which was activated on May 24, composed of more than 600 infantry and field artillery reserve officers who served in World War II.

Orders assigning reserve officers to the new unit have been mailed by headquarters, sixth army, to the East Bay officers. All of the senior officers of the group were active in either reserve or National Guard prior to the war and had active assignments during the war.

Commencing in August, regularly scheduled troop schools will be held twice monthly.

Lieut. Col. T. C. Dobbins, in charge of organized reserve affairs at the Oakland Army Base, is acting unit instructor of the group.

VACATION SCHOOL AT NILES CHURCH

"Our Father's World" is the theme that has been chosen for the vacation church school which is to be held at the Congregational Church school from 9 to 12 each morning, Monday through Friday, June 23-27.

Emphasizing the study of the world of nature through projects, field trips, and out-of-door recreation, the leaders of the school propose to help boys and girls of ages 4-14 to better understand and enjoy the natural world.

Of special interest to the seventh, eighth and ninth graders will be a course in zoology taught by a young woman from Berkeley, Miss Lawery. Those who study in this group will find new interest in the small animal life which they meet in their backyards and summer camps.

All children are invited to attend the school, where they will find a balanced program of worship, singing, study, activity and social contact.

THIRD IN SERIES OF MERCHANTS' MEETINGS TONIGHT

The third in the series of the Washington Township Merchants' Retail Management Conferences will be held tonight (Friday) at 7:30 in the visual education room of the high school, bringing together local merchants and their employees to consider the problems of putting more selling power into local retail stores through the medium of better advertising, display, and personal selling.

Successful ideas for getting better newspaper advertising results will be discussed, and it is believed that with the combined efforts of all merchants to use these ideas, the pulling power of local newspaper advertising will be greatly increased.

Earl H. Kieselhorst, conference leader, plans to show a sound-slide film to illustrate how personal selling may be improved by the use of visual aids.

Local merchants are enthused with the profitable ideas that have been developed in each of the conferences. They are looking forward to expanding business activity in Washington Township as these ideas are more generally applied by all merchants doing business here.

The series of meetings is being conducted under the auspices of the Washington Adult Evening School.

PARTY TONIGHT AT PARSONAGE

A party at the parsonage is the next treat in store for the Young People's Fellowship of the Niles Congregational Church. This was disclosed at the regular meeting held last Sunday.

The party will be held this Friday, June 20, at 7:30. All young people interested are invited to attend. There will be a charge of 25 cents per person to cover expenses. According to present plans, the evening should provide the maximum amount of entertainment for those who attend.

Another interesting event scheduled is the bachelor's dinner, to be given some time in July. More detailed plans will be announced at a later date.

Following last Sunday's meeting, the young people adjourned to the manse where the Rev. Don Kirkbride served refreshments.

LEIS FLOWN FROM HAWAII FOR WEDDING IN GARDENS OF ROEDING HOME

The private gardens of the George Roeding home at the California Nursery provided the setting last Saturday for the beautiful wedding that united in marriage Mrs. Austin Davis of Honolulu, a former school friend of Mrs. Roeding's, and Mr. Frank Pennock of Oakland.

Using the big pepper tree, which was strung with leis flown from Hawaii, as a background, the couple exchanged their wedding vows before a crowd of approximately 85 guests. Dr. Paul Reagor of Oakland performed the ceremony.

In addition to the leis which were of ginger blossoms and pink flumeria, the tree was banked with growing hydrangeas. Hanging baskets of pink begonias and fuchsias also lent their loveliness to the setting.

Carrying out the Hawaiian atmosphere, the Hawaiian orchestra from the Tonga room of the Fairmont Hotel played the incidental music and the Hawaiian Wedding March.

The bride, who was a classmate of Mrs. Roeding's at Castilleja School and also at Pine Manor School at Wellesley, chose a dusty pink suit for her wedding. With it, she wore dark blue accessories and a white ginger lei and white orchids. She was escorted by her 17-year-old son, Austin Davis.

The bride's sister, Mrs. Eileen Shaw, was her matron-of-honor. She was in a dark blue faille suit, with white hat and blue accessories and wore a pink flumeria lei. On either side of Mrs. Shaw were the bride's daughters, 14-year-old Marlene Davis who was attired in a blue suit, as was her sister, 12-year-old Fay. Both girls wore pink flumeria leis.

The best man was Mr. Pennock's 21-year-old son, Frank Pennock, Jr. Mr. George Roeding, Jr., and Mr. Griffith Oliver showed the guests to their seats.

Among the guests were the bride's parents, Mr. and Mrs. John J. Walsh, formerly of Honolulu, and now of Palo Alto. Mr. Pennock's mother, Mrs. Mabel Pennock of Alameda, was also present, as was his sister and brother-in-law, Mr. and Mrs. Baxter McNutt of Alameda.

Luncheon was served in the gardens immediately following the ceremony, after which the newlyweds left for a plane trip to Malibu Bay in Canada for a honeymoon. They will return to make their home in Oakland, where Mr. Pennock is in the rubber business.

Eden Congregational Church in Hayward was the setting for the wedding last Saturday afternoon at two o'clock of Mary Margaret Alt, daughter of Mr. and Mrs. Leslie Alt of Hayward, and Mr. J. D. Russell, son of Mr. and Mrs. Jeff Russell, also of Hayward.

The bride, given away by her father who is superintendent of the Kraftile Company at Niles, was attired in a white faille floor-length gown. She carried a bouquet of white gladiolas, and wore a finger-tip illusion veil that fell from a lace coronet. The gown was fashioned with a sweetheart neckline, tight bodice, and long sleeves.

Barbara Swanson of Tacoma, Wash., a childhood friend of the bride, was the maid of honor. She wore a pink moire frock and carried a bouquet of carnations and roses.

Catherine Russell, sister of the bridegroom, was a bridesmaid, and wore pink chiffon. She also carried a bouquet of carnations and roses.

The little flower girl, Beverly Caddy of Hayward, was in yellow dotted swiss, carrying a basket of rose petals.

The bride's mother was in a black sheer afternoon dress, accented with pink accessories and a pink corsage.

The benedict's mother wore navy blue with matching accessories and a gardenia corsage.

Standing up with his brother as best man was Wayne Russell, while Rolland Schuman of Alameda and Earle Dawes of Hayward did ushering duties.

Following the ceremony, at which the Rev. Richard C. Norberg officiated, a reception was held at Svengaard's.

For her going-away outfit the bride chose a royal blue bolero suit, with natural straw hat.

The newlyweds, after a short honeymoon, will make their home in an apartment in Hayward.

The new Mrs. Russell is a graduate of Sioux City High School in Iowa, and later attended the University of California. Mr. Russell, a graduate of Hayward High, served with the Army Air Corps for three years, 18 months of that time being spent in China. He is presently employed in the offices of the Chevrolet plant in San Leandro.

JOE ADAMS REVEALS CHANGE IN STAFF

Joe Adams, Centerville Ford dealer, announced this week that James Logan has assumed the position of manager of the garage, replacing Floyd McCown, who resigned effective May 1 to enter business for himself in Sonora.

Logan is a native of Washington Township and is well known throughout this area. He has been employed at the Ford Garage since September 20, 1945, when he was discharged from the Navy with the rating of Aviation Mechanist Mate First Class. He resides at Centerville.

Adams also revealed that Edward Beckway, another Navy flight mechanic, who is now on terminal leave with the rating of Chief Mechanist Mate, has been hired to head the service department of the garage.

Beckway, who had six years with the Navy air corps, is a veteran of the Aleutian campaign, flying the famed P.B.Y.'s. He and his family reside at 35 Canyon Heights Road.

Dear Mr. and Mrs. Batman:

We would like to take this opportunity to thank you for the time and trouble you took to help make the Washington Township X-ray Survey a success.

You will be interested to know that a total of 1,344 x-rays were taken, 8.5% of the people in the township.

Thank you again for your assistance.

Sincerely yours,

Utilizing the press—if it is willing—is a lazy man's way of writing a bread-and-butter letter. But that is what I am doing. There are so many people whom I should like to thank for helping make my recent experience in directing the sesquicentennial pageant such a happy one. I shall long cherish the memory of them, and of the experience.

Such a community adventure involves a lot of work and a lot of fun, and in retrospect the fun and pleasure predominate. At least that is my feeling, and the feeling, I hope, of all others who helped make the production successful. And I think we have all learned something. We know more than we once did of how a pageant is built; all the cooperation that is needed to translate an author's text and a hayfield into a work of art—however significant or otherwise the work of art may be.

Those of us who watched the performances carry a multitude of particular images in our minds. At the moment, while writing this letter, among many others I recall the stealth of the skulking Indians; the group of Indians working at their clay and loom; the fiesta and the palominos; the effort of Mr. Bristow to ride the donkey (two strong wills in conflict); the medieval silhouette of the padres on top of the church; the faces of the children from St. Mary's, waiting backstage for their entrance.

Good luck for your two-hundredth!

EVERETT GLASS,
Pageant Director.

A WESTERNER IN WASHINGTON

By ALLEN DRURY

Although private utilities have been responsible for much of the opposition to the power program of the Bureau of Reclamation, more than 42 cents of every dollar of income from Bureau power sales is now coming from private utility purchases.

This interesting contradiction has been highlighted by release of a report by Reclamation Commissioner Michael W. Straus.

Straus' report discloses that sales from power plants owned and operated by the Bureau totaled 11,500,000,000 kilowat hours in the fiscal year which ended June 30, 1946. The income from the sales was $20,448,936, minus operating costs of $5,348,930. which left a gross income of $15,100,006.

Income from this source goes to repay the cost of power installations, plus an interest of 3 per cent.

Second largest purchasing group for public power includes municipalities, towns and villages, which account for about 20½ cents of every income dollar. Federal agencies are third with slightly more than 18 cents. The balance, approximately 18 cents, comes from public bodies, state agencies, rural cooperatives, commercial, industrial and other non-utility operations.

Straus pointed out that many of the private utility purchases occur in the Boulder Dam Project area, in the Central Valley of California, and in the Columbia Basin.

In the Central Valley in particular, private utility opposition to the Bureau's program is intense. It seems to be least in the Columbia Basin, where a good many private firms have been asking their representatives in Congress to fight for large appropriations for public power.

Straus' report has been timed to coincide with Senate consideration of the controversial 1948 Interior Department appropriations bill in which public power features of the Reclamation Bureau's program have received their severest trimming in many years.

Apparently it is the hopes of the department that the figures he presents will have some effect in persuading the Senate to restore some of the more drastic cuts. It remains to be seen whether this will be so, but at any rate the report will furnish some interesting arguments to those who favor public power in the West.

At the same time, it must be remembered in fairness to the utilities that with some of them their espousal of the cause of public power is inspired by a feeling that they have no choice in the matter. The government has certain advantages in the game, among them unlimited tax-free funds and rights of condemnation which help in acquiring property.

The government, as the utilities point out, "doesn't have to make a profit"—a statement which perhaps goes straight to the head of the whole issue and to the heart of any other program for social betterment. It is a statement which possibly robs the utilities and all who use it of the whole moral basis of their position.

One of the basic questions about government which nobody has decided finally yet boils down to just that item of profit. Does government exist to make money, or does it exist for the benefit of its people?

If the former, then the utilities and their friends my have a point; if the latter, then perhaps they do not.

If you accept the idea that government has no other meaning or excuse except to make the world a better place in which to live, then the argument that government enterprises "have to make a profit" goes out the window.

If on the other hand you believe that government is a machine without a heart which has to make money or be a dead loss, then profit becomes very important.

It is the ceaseless conflict between those who measure government in terms of a better life for all and those who believe in putting the dollar sign on human progress.

GROWERS ASKED TO EXHIBIT AT FAIR

Decision to participate in the 1947 California State Fair at Sacramento was announced this week by Harry Bartell, chairman of the Board of Supervisors.

An invitation to take part in the fair was extended the county by the directors of the Agricultural Society of the State of California through Fred Bixby, president.

During the war years no fair was held at Sacramento as the buildings at the fair grounds were occupied by U. S. Army troops.

In pre war years Alameda County captured many high awards for entries of fruits, flowers and vegetables. In the wine class the highest recognition was extended Alameda County entries.

Growers will be officially contacted by a representative of the county, states Supervisor Chester E. Stanley. One of the first entries was announced by Tom Kirby of the Morton Salt Co. of Newark.

THE ANSWER IS "a shirt, if it cost less than $4.00."
From 1939 through 1946, including the war years, the average profit of the steel industry was 4.4 cents on the sales dollar.
Average profit per ton of steel shipped during those war years was less than $4.00 per ton.
Since 1939, average wholesale prices of commodities have increased 94 per cent. However, the average price of steel today (less than 3 cents a pound) is only 33 per cent above 1939.

V.A. BENEFITS

(Continued from page 1)

concerning his case. According to a recent ruling of General Bradley, a veteran in this situation may receive treatment on a presumption of service connection. The provision is that disallowance of service connection must not have been made prior to the time that a request for authorization for treatment is received at the Regional office of the C.P.S. In the contingency that a disallowance is made in this interim period the veteran must pay his own doctor bills. He may, however, by the furnishing of supplemental medical evidence, or perhaps, by affidavits proving facts relative to occurrence of his disability seek to establish that service connection should not have been disallowed.

OUT-PATIENT CARE

Another veteran may have neglected to make a claim at the time of discharge, but now finds himself suffering from an ailment which he believes due to circumstances of his active duty. He should go to the nearest office of the Veterans Administration and complete the Form 526 application, showing thereon the necessary facts of his service, the disability claimed, and a statement as to time, place, and nature of any medical care during service. He will be given a letter showing the nature of disability for which a determination of service connection is desired. This may then be submitted to the physician, who will in turn request authorization from the C.P.S. regional office.

In case of a malarial attack; or, possibly, for certain skin conditions a single treatment prior to authorization may be granted. In all other cases, however, the procedures, as set forth, must be followed.

It is estimated that more than 500 veterans a week in Northern California alone are being authorized the benefit of this out-patient care. Similar arrangements have been made or are being planned in a few other states. It is obvious that the value of this service should be measured in considerations far more important than a temporary convenience to a disabled veteran. With cooperation of all veterans it is to be hoped that this is a service which will continue to be available throughout their lifetimes.

MOTOR THEATER OPENING JULY 3

Something new and different in theater entertainment was announced this week, with the opening to the public, Thursday night, July 3, of the recently completed Motor Movies Theatre, 2 miles south of Hayward on the Niles Highway.

"Go as you are, sit in your car" will be the watchword at this new style theater which will have a capacity of 600 cars with individual speakers for each auto. The volume is controlled by each patron just as you control your own radio. The movies are projected on a huge 60 by 40 screen and cars parked on ramps with the fronts slightly elevated to insure perfect vision from any location. The public is permitted to smoke and babies and small children are admitted free.

The programs will be changed several times per week, according to the operators, Gordon Allen and Lynn Ruggles.

The theater will open at 6:30 each night and the picture will start at dusk, operating on a year round basis. There will also be a refreshment counter located in the center area where all sorts of soft drinks, candies, ice cream, popcorn and hot dogs will be served.

Popular admission prices will prevail and the theater's policy will be directed towards the comfort of families.

County-owned forest lands in 23 states total almost seven million acres.

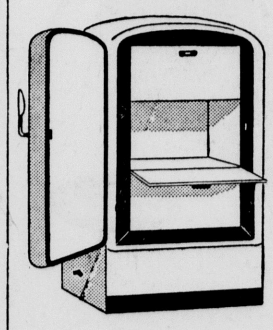
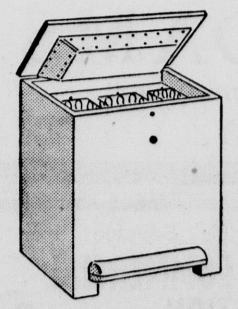
Your New ELECTRIC REFRIGERATOR
... how to select it!

SOON you will be able to get delivery on the particular make and style of electric refrigerator you have been waiting for. But regardless of what refrigerator you buy there is ONE MOST IMPORTANT question you should ask. That question is—"What size should I buy?" • To fit the size of electric refrigerator to your family's needs follow these simple rules. First of all, allow 2 cubic feet for each member of the family—an 8-cubic-foot refrigerator for four. Allow more room, too, if you have several children who need lots of milk. If you eat three meals a day at home or entertain quite a bit, that also calls for plenty of space. Finally, remember your old refrigerator which did not have that extra space for a watermelon or the turkey carcass. • You will find that the new refrigerators in larger sizes give you greater value, greater usability and lower operating cost.





Remember the first frozen food you tried? It was probably a package of peas and you exclaimed with delight when you saw their garden-green color and later enjoyed the garden-fresh flavor. Today there are dozens of fine frozen foods and many more delights are yet to come. You will be buying them. You will be freezing your own fruits and vegetables. Right now you can see many fine home freezers on display in stores. Plan to buy and use one in your home this year.

Green beans are a nourishing food you can have in plentiful supply for your family by canning them in your own kitchen. Select fresh beans and be sure to wash them thoroughly before the pods are broken or cut. The short fuzz or nap on the pods holds dust and possibly bacteria, yeasts or moulds which may cause spoilage. After washing the beans, string, and break or cut them into two-inch pieces. Boil five minutes and pack into hot Ball jars. Add one teaspoon salt to each quart. Cover with water in which the beans were cooked. Process beans with small, young pods 35 minutes and those with large pods 55 minutes at ten pounds pressure.
